

## DC Remotes

Model #	Description	List	Dealer
DR10	Telephone style DC remote with handset. Features off-hook monitor, front panel PTT, PTI circuit, line continuity sensing, cross mute, and 2 watt audio. Control currents are dip switch selectable. Jumper selectable trunking mode - status tones heard over handset earpiece. (Ash color)	\$299.00	\$195.00
DR20	Console style DC remote with desk microphone. Features panel mounted monitor and intercom, front panel PTT, PTI circuit, line continuity sensing, cross mute, and 2 watt audio. Control currents are dip switch selectable.	\$475.00	\$315.00
DR30	Console style DC remote with internal microphone. Same features as DR20 with internal microphone instead of desk mic.	\$284.50	\$185.00
DR40	Console style DC remote with goose neck microphone. Features panel mounted monitor and intercom, front panel PTT, PTI circuit, line continuity sensing, cross mute, and 2 watt audio.	\$475.00	\$315.00
DR10-NC	Telephone style remote with no current. Can be used for intercom system.	\$284.50	\$185.00

## DC Termination Panels

Model #	Description	List	Dealer
DTP1	Single frequency DC termination panel features audio amplification in both directions, dip switch selection of control currents, LED indication of panel status and on board squelch circuit. This unit will interface to virtually any two way radio. Board only - case option available.	\$135.00	\$91.50
DTP2	Same features as the DTP1 with monitor function.	\$160.00	\$107.50
DTP3	Same features as DTP2 with two frequency selection.	\$200.00	\$135.00
MR100	Single frequency plus monitor enclosed DC termination panel. Plugs directly into many Motorola mobile's microphone jack with no modifications. Uses +5.5mA PTT and -2.5 mA monitor. Features audio amplification in both directions. For Maxtrac 100, 300, Radius M10,100,120,M200, GM300, SM50, SM120, M1225, GTX, MCS2000, CDM series radios, GR series repeaters, and CM series radios.	\$240.00	\$159.95
JM100	Same features as the MR100 for use with the E.F. Johnson Challenger or 8600 series radio. +12mA PTT and +5.5mA monitor.	\$240.00	\$159.95
YSU100	For use with Yaesu's Vertex series radios. Minor radio mod. required	\$240.00	\$159.95
ICM100	Plug in term panel for the ICOM (X)120/121, 3x0/4x0/5x0/6x0 series radios	\$240.00	\$159.95

## DC Termination Panels Options

Option	Description	List	Dealer
-C	Black, vinyl clad steel and aluminum enclosure for the DTP series panels	\$44.00	\$30.00
-4W/FD	Jumper selectable 4-wire (audio on first pair, control currents on second pair) or full duplex (RX audio on one pair, TX audio and control currents on second pair) DTP and XX100 series panels	\$23.00	\$15.00
-TR	Allows trunking status tones to pass back to remote earpiece when using the -10 series remote and the MR100 or JM100 panel. (Standard on DTP)	\$23.00	\$15.00
-80 cable	Cable to connect the DTP series to the Kenwood KCT19 connector on the -80 series radios	\$32.00	\$25.00
-90 cable	Cable to connect the DTP series to the Kenwood DB25 connector on the -90 series radios	\$32.00	\$25.00
-150/-180 cable	Cable to connect the DTP series to the Kenwood DB25 connector on the -150/-180 series radios	\$32.00	\$25.00
-Moto cable	Cable to connect the DTP series to Motorola mobile radios with the 16 pin accessory connector	\$32.00	\$25.00
Rack/DTP	19 inch rack holds 4 DTP series panels - DTP must have case option	\$80.00	\$65.00
Rack/MR	19 inch single height rack holds 3 MR series panels	\$80.00	\$65.00

## DC to Tone Converter

Model #	Description	List	Dealer
DTC1	DC to Tone control convertor box. Terminates one or more of your existing DC remotes and provides sequential tone control on a 600 ohm balanced pair. Features dip switch selection of desired DC control format with up to three functions. (F1/F2, PTT, and monitor)	\$405.00	\$275.00

## Local Extension Remotes

Model #	Description	List	Dealer
LE10	Telephone style local extension with handset. Features off-hook monitor, front panel PTT, PTI circuit and 1 watt audio.	\$220.00	\$150.00
LE20	Console style local extension with desk microphone. Features panel mounted monitor and intercom, front panel PTT, PTI circuit, and 1 watt audio.	\$370.00	\$250.00
LE30	Console style local extension with internal microphone. Features panel mounted monitor and intercom, front panel PTT, PTI circuit, and 1 watt audio.	\$220.00	\$150.00
LE40	Console style local extension with goose neck microphone. Features panel mounted monitor and intercom, front panel PTT, PTI circuit, and 1 watt audio.	\$370.00	\$250.00

# Tone Remotes - Single freq, multi-freq, multi-line

Model #	Description	List	Dealer
TR10	EIA standard single frequency telephone style tone remote with handset. 1950 Hz function tone, 2050 Hz monitor, and 2175 Hz hold tone. Features on and off-hook monitor, front panel PTT, parallel transmit indication, cross mute, and 2 watt audio. PTI and x-mute are hardwire. (Ash color)	\$390.00	\$261.00
TR20	Console style desk microphone version of the TR10.	\$550.00	\$366.25
TR30	Console style internal mic version of the TR10.	\$390.00	\$261.00
TR40	Console style goose neck microphone version of the TR10.	\$550.00	\$366.25
TR10-4F	Telephone style remote with handset. E.I.A. standard 4 Frequency 1950-1650 Hz. function tones. 2050 Hz monitor and 2175 Hz hold tone. Features panel mounted monitor and intercom, front panel PTT, parallel transmit indication, cross mute, and 2 watt audio.	\$510.00	\$340.00
TR10-8F	Same as TR10-4F with 8 Freq. control	\$530.00	\$360.00
TR10-12F	Same as TR10-4F with 12 Freq. control	\$540.00	\$370.00
TR10-16F	Telephone style remote with handset. E.I.A. standard 16 Frequency 1950-450 Hz function tones. 2050 Hz monitor and 2175 Hz hold tone. Features panel mounted monitor and intercom, front panel PTT, parallel transmit indication, cross mute, and 2 watt audio.	\$577.00	\$385.00
TR10-4F-16F (options)	(-DM) Desktop microphone replaces handset on multi-freq tone remote (-GM) Gooseneck microphone replaces handset on multi-freq tone remote	\$100.00 \$100.00	\$75.00 \$75.00

Note: The TR series multi-frequency tone remotes are not “field programmable”. These units are factory set for the E.I.A. standard function, guard, and hold tones. If you require a “non standard” or special function tone set please contact CPI and we will be happy to assist you.

## SEE PAGE 5 FOR TONE REMOTE OPTIONS

### TRML Multi-Line Remotes

TRML	The 4 Line TRML remote controls 4 separate base radios. The TRML unit has all of the features of the TR series remotes with the following additional standard features: selected and unselected volume controls, activity indicator per line, select all, RX mute per line, parallel transmit indication, crossmute, jumper selectable 4W/FD, and locking quick disconnect power supply.	\$1025.00	\$680.00
TRML-8F	Same reatures as the 4 Line TRML with 8 frequency control per line.	\$1075.00	\$725.00
-CC	Provides a relay for contact closure PTT on each line	\$46.00	\$30.00
-DM	Desk Microphone - This option is in addition to handset.	\$125.00	\$100.00
-FS	Footswitch for PTT	\$75.00	\$50.00
-GN	Gooseneck Microphone Option - This option replaces the handset	\$125.00	\$100.00
-SPK/JACK	3.5 mm plug for amplified external speaker	\$23.00	\$15.00
-SPKR	Amplified speaker with 3.5 mm plug. Requires 12 VDC	\$72.50	\$50.00
-BK	Unit is black instead of ash	\$23.00	\$15.00
HS BOX	Headset Box - To be available at a later date

# Tone Termination Panels - (N) Series

## Model # Description

List

Dealer

Model #	Description	List	Dealer
TTP1(N)	Single frequency plus monitor tone panel with jumper selectable 4W/FD operation, tone detection AGC, and LED indicators for panel status. 1950 Hz PTT and 2050 Hz monitor.	\$360.00	\$245.00
TTP2(N)	Two frequency version of the TTP1(N). F2 is 1850 Hz.	\$395.00	\$270.00
TTP216	Enclosed 16 frequency tone termination panel. 1950-450 Hz. User programmable function tones with 14 pre-sets. LED panel indicators, tone detection AGC, jumper selectable 2 wire, 4 wire, or full duplex operation. No programming cables needed with this unit. For use with radios that have channel select lines for BCD channel selection.	\$577.00	\$380.00
MR200(N)	Enclosed version of the TTP1(N) plugs directly into the microphone jack on certain radios. For Maxtrac 100,300, Radius M10,100,120,M200, GM300, SM50, SM120, M1225, GTX, MCS2000, CDM, and CM series radios	\$461.50	\$309.95
MR202(N)	Two frequency version of the MR200(N). Requires a radio jumper for channel selection operation.	\$538.50	\$349.95
JM200(N)	Modified version of the MR200(N) for the E.F. Johnson Challenger or 8600 series radios.	\$461.50	\$309.95
ICM200	Modified version of the MR200(N) for use with ICOM (X)120/121 and 3x0/4x0/5x0/6x0 series radios	\$461.50	\$309.95
TTP216-EFJ	TTP216 - Uses RS485 to control 16 channels on the EF Johnson 5300 series radio. Includes cable to connect termination panel to radio.	\$600.00	\$400.00

# Tone Termination Panel Options

Option	Description	List	Dealer
-C/TTP(N)	Black, vinyl clad steel and aluminum enclosure for the TTP(N) series panels	\$48.00	\$35.00
Rack/(N)	19" single height rack holds 3 of the above panels - Must have case option	\$80.00	\$65.00
-80 cable	Cable to connect the TTP or TTP(N) series to a Kenwood KCT19 connector on the -80 series radios	\$27.50	\$25.00
-90 cable	Cable to connect the TTP or TTP(N) series to the DB25 connector on the Kenwood -90 series radios	\$27.50	\$25.00
Cable 216-90	Cable to connect the TTP216 series to the DB25 connector on the Kenwood -90 series radios	\$27.50	\$25.00
-150/-180 cable	Cable to connect the TTP or TTP(N) series panels to the DB25 connector on the Kenwood -150/-180 series radios	\$27.50	\$25.00
-150/-180 cable(216)	Cable to connect the TTP216 series panel to the DB25 connector on the Kenwood -150/-180 series radios. Included RJ45 cable from panel to mic.	\$27.50	\$25.00
-moto cable	Cable to connect the TTP, TTP(N) or TTP216 series to Motorola mobile radio that uses the 16 pin accessory connector.	\$27.50	\$25.00

## Tone Panels

Model #	Description	List	Dealer
TTP1	Single frequency plus monitor tone panel. EIA standard 1950 Hz PTT, 2050 Hz monitor. Case option is optional.	\$333.00	\$225.00
TTP2	Same as TTP1 with 2 frequency control. F2 is 1850 Hz.	\$378.50	\$250.00
TTP4	Enclosed 4 frequency tone panel. 1950, 1850, 1750, 1650 Hz PTT and 2050 Hz monitor. Relay output is jumper selectable for momentary or latched operation.	\$553.75	\$360.00
TTP10	Same as TTP4 with 10 relay outputs. 1950-1050 Hz PTT and 2050 monitor.	\$600.00	\$400.00
TTP-BCD	BCD relay output panel is capable of 10 channel selection . 1950-1050 Hz PTT and 2050 Hz monitor	\$570.00	\$375.00

Option	Description	List	Dealer
-4W/FD	Jumper selectable -4W/FD for TTP1, TTP2, TTPXX	\$23.00	\$15.00
-C/TTP	Case option for the TTP1 and TTP2.	\$44.00	\$30.00
Rack/TTP	Single height 19" rack holds 4 TTP1 or TTP2 panels. Must have case opt.	\$80.00	\$65.00

## Specialty Remote Systems for Kenwood mobile radios

<b>Model #</b>	<b>Description (-150, -180, and 5710 Kenwood mobiles)</b>	<b>List</b>	<b>Dealer</b>
TSR(K)100A	Telephone style remote with handset for use with the -150, -180, TK5710 P25 series and NX700/800 series Kenwood radios. Provides Zone/Channel display with a user programmable 8 character alpha numeric channel identifier, remote Zone/Channel change, scan, monitor, front panel PTT, intercom, and privacy.	\$697.25	\$460.00
TSR(K)100A-DM	Console version of the TSR(K)100A with desk microphone. This unit has all of the same functions as the TSR(K)100A.	\$730.00	\$515.00
TSP150K	Termination panel interfaces the TSR(K)100A series remotes to the Kenwood -150 series radio through the DB25 connector. Requires programming of accessory pins on the DB25 connector. The radio becomes dedicated to remote operation when using this system	\$466.50	\$305.00
TSP180K	Termination panel interfaces the TSR(K)100A series remotes to the Kenwood -180 series radio through the DB25 connector. Requires programming of accessory pins on the DB25 connector. The radio becomes dedicated to remote operation when using this system.	\$466.50	\$305.00
TSP710K	Termination panel interfaces the TSR(K)100A series remotes to the Kenwood 5710 P25 series radio through the DB25 connector. Requires programming of accessory pins on the DB25 connector. The radio becomes dedicated to remote operation when using this system.	\$466.50	\$305.00
TSP100NX	Termination panel interfaces the TSR(K)100A series remotes to the Kenwood NX700/800 series radio through the DB25 connector. Requires programming of accessory pins on the DB25 connector. The radio becomes dedicated to remote operation when using this system.	\$466.50	\$305.00

<b>Model #</b>	<b>Description (90 series mobiles)</b>	<b>List</b>	<b>Dealer</b>
MCR411A	Telephone style remote with handset for -90 series Kenwood radios. Provides Group/Channel display with a user programmable 9 character alpha numeric channel identifier, remote Group/Channel change, scan, monitor, front panel PTT, intercom, and privacy.	\$697.25	\$460.00
MCR411A-DM	Console version of the MCR411A with desk microphone.	\$720.00	\$515.00
MCP401	Termination panel interfaces the MCR411A series remotes to the Kenwood -90 series radio through the DB25 connector. Requires programming of accessory pins on the DB25 connector. The radio becomes dedicated to remote operation with this system.	\$466.50	\$305.00

**FOR SPECIALTY REMOTE OPTIONS SEE PAGE 11 OF THIS PRICE GUIDE**

## Specialty Remote Systems for Kenwood mobile radios

<b>Model #</b>	<b>Description (80 series mobiles)</b>	<b>List</b>	<b>Dealer</b>
TSR412A	Telephone style remote with handset for the -80 series Kenwood radios. Provides System/Group display with a user programmable 9 character alpha numeric identifier, remote System/Group change, scan, monitor, front panel PTT, intercom, and privacy.	\$697.25	\$460.00
TSR412A-DM	Console version of the TSR412A with desk microphone.	\$730.00	\$515.00
TSP402	Termination panel interfaces the TSR412A series remotes to the -80 series Kenwood radios. Uses the Kenwood KCT-19 connector. Requires radio programming changes to be made.	\$466.50	\$305.00

<b>Model #</b>	<b>Description (-30 series mobiles)</b>	<b>List</b>	<b>Dealer</b>
MCR410A	Telephone style remote with handset for -30 series Kenwood radios. Provides Channel display with a user programmable 10 character alpha numeric channel identifier, remote channel change, scan, monitor, front panel PTT, intercom, and privacy	\$697.25	\$460.00
MCR410A-DM	Console version of the MCR410A with desk microphone	\$730.00	\$515.00
MCR410	Telephone style remote with handset for -30 series Kenwood radios. Provides LED channel display, remote channel change, scan, monitor, front panel PTT, and intercom.	\$582.00	\$385.00
MCR420	Console style remote with desk microphone for -30 series Kenwood radios. Provides LED channel display with channel change, scan, monitor, front panel PTT, and intercom.	\$697.25	\$465.00
MCP400	Termination panel and adapter for Kenwood 630, 730, and 830 series.	\$505.00	\$330.00

<b>Model #</b>	<b>Description (40 series mobiles)</b>	<b>List</b>	<b>Dealer</b>
TSR411A	Telephone style remote with handset for the -40 series Kenwood radios. Provides System/Group display with a user programmable 9 character alpha numeric identifier, remote System/Group change, scan, monitor, front panel PTT, intercom, and privacy	\$697.25	\$460.00
TSR411A-DM	Console version of the TSR411A with desk microphone	\$730.00	\$515.00
TSP401	Termination panel connects TSR411 series to the -40 series Kenwood radios. Uses the Kenwood KCT-19 connector	\$466.50	\$305.00

**FOR SPECIALTY REMOTE OPTIONS SEE PAGE 11 OF THIS PRICE GUIDE**

## Systems for Motorola GM300, Maxtrac, M1225 and SM120

The following multi-channel remotes for the various Motorola models can be used together in a single system. Alpha and non alpha remotes will function together in the same system using 2 wire operation. Only the alpha remotes and termination panels are capable of full duplex operation. Non alpha remotes can not be used in a full duplex system.

<b>Model #</b>	<b>Description</b>	<b>List</b>	<b>Dealer</b>
MCR210A	Telephone style remote with handset. Provides channel display with a user programmable 10 character alpha numeric channel identifier, remote channel change, scan, monitor, front panel PTT	\$697.25	\$460.00
MCR210A-DM	Console version of the MCR210A with desk microphone.	\$730.00	\$515.00
MCR210	Telephone style remote with handset provides LED channel display. Provides remote control of channel change, scan, and monitor. Unit also has front panel PTT and intercom features.	\$582.00	\$380.00
MCR220	Console style version of the MCR210 with desk microphone.	\$697.25	\$465.00
MCR250	19 inch rack mount vesion of the MCR210 with internal microphone.	\$923.00	\$625.00

<b>Model #</b>	<b>Description</b>	<b>List</b>	<b>Dealer</b>
MCP200	Termination panel and adapter interfaces the MCR200 series remotes to the Motorola Maxtrac 300 and radius M200 radios.	\$466.50	\$305.00
MCP200G	Termination panel and adapter interfaces the MCR200 series remotes to the Motorola Radius GM300 radio.	\$466.50	\$305.00
MCP200M	Termination panel and adapter interfaces the MCR200 series remotes to the Motorola Radius M1225 20 channel radio. (Radio is dedicated to remote operation in this system.)	\$466.50	\$305.00
MCP200MLS	Termination panel and adapter interfaces the MCR200 series remotes to the Motorola Radius M1225(LS) radio. (Radio is dedicated to remote operation in this system.)	\$466.50	\$305.00
MCP200S	Termination panel and adapter interfaces the MCR200 series remotes to the Motorola Radius SM120 radio.	\$466.50	\$305.00

<b>Model #</b>	<b>Description (CDM1550 and CDM1550LS)</b>	<b>List</b>	<b>Dealer</b>
MCR211A	Telephone style remote with handset. Provides channel display with a user programmable 9 character alpha numeric channel and zone identifier, remote channel change, scan, monitor, front panel PTT. For use on Motorola CDM1550 series radios.	\$697.25	\$460.00
MCR211A-DM	Console version of the MCR211A with desk microphone.	\$730.00	\$515.00
MCP200C(LS)	Termination panel for connecting the MCR211A remotes to the CDM1550 and CDM1550(LS) radios.	\$466.50	\$305.00

**FOR SPECIALTY REMOTE OPTIONS SEE PAGE 11 OF THIS PRICE GUIDE**

<b>Model #</b>	<b>Description (CM300 remote system)</b>	<b>List</b>	<b>Dealer</b>
MCR212A	Telephone style remote with handset. Provides channel display with a user programmable 10 character alpha numeric channel identifier. Remote features include channel change, scan, monitor, and front panel PTT. For use on Motorola CM300 series radios.	\$697.25	\$460.00
MCR212A-DM	Console version of the MCR211A with desk microphone.	\$730.00	\$515.00
MCP200CM	Termination panel for connecting the MCR212A series remotes to the CM300 radio.	\$466.50	\$305.00

<b>Model #</b>	<b>Description (Maxtrac 800 and 900 Mhz)</b>	<b>List</b>	<b>Dealer</b>
TSR210A	Telephone style remote with alpha numeric display features a 10 character user programmable channel identifier. Features system and group selection, scan and monitor functions, front panel PTT, and intercom between parallel remotes. Dip switch selectable FD operation.	\$697.25	\$460.00

## Special Application Units

DTP-RAY	Full duplex termination panel board that provides 600 ohm balanced audio with amplification in both directions.	\$175.00	\$125.00
Decoders	Decoders are available as an option on many remotes. CPI will factory install these as an alert feature or as a "HEAR" system. Audio is muted until the specified tone is decoded.	Contact CPI	
GE DC format	DC remotes can be special ordered to work with the older GE format.	Contact CPI	
Specials	Please contact CPI for any information on any special requirements or modifications that you may need on any of our products.	Contact CPI	

## **RETURN POLICY**

All returns must be made within 30 days of invoice date, after 30 days all sales are final. Sales of special orders or custom units are final on date of sale. Returns that are unopened will be subject to a restocking fee equal to 20% of the invoice price. Returns that have been opened will be subject to an additional testing or refurbishing fee. If the returned item shows a defect that is not covered under warranty, you will be charged normal rates for repair. All returns will be for credit only unless prior arrangements have been made with CPI. All returns must have a RMA number clearly marked on the shipping label. To obtain an authorization number contact CPI at 800-869-9128.

## **TERMS**

All dealers will be requested to complete a credit application. (Texas accounts will require a Tax I.D. number to be furnished). After review, dealer accounts will be placed on one of the following credit or purchase plans:

1. Net 30 day terms up to your credit limit.
2. COD/ Company check accepted.
3. COD-Cash
4. Bank wire or certified funds in advance.

## **INTERNATIONAL TERMS**

Terms for all international shipments are prepayment by bank wire transfer. The full amount of the order, plus any applicable bank and shipping charges must be received before any order is shipped. Orders can be shipped freight collect or pre-paid by UPS, Federal Express, or the freight forwarder of your choice. All bank and shipping information will be sent to the customer upon receipt of order. If you have any questions or need information please contact us.

## **PRODUCT WARRANTY**

CPI Communications, Inc. warrants each product manufactured by it to be free from defective material and workmanship and agrees to remedy any such defects or to furnish a new part in exchange for any part of any unit of its manufacture which under normal installation use or service discloses such defects, provided the unit is delivered by the customer to our authorized service center intact within 2 years or purchase. No credit will be given for unauthorized repairs.

This warranty does not extend to any product that has been subject to misuse, neglect, accident, incorrect wiring not our own, improper installation, nor units which have been altered or repaired outside of our service center.

This warranty is in lieu of all other warranties expressed or implied and no person is authorized to assume for us any other liability in connection with the sale of our products.
